

SEPTEMBER 2009

13 STRAIGHT WINS FOR DYNAMIC GOLD

True Temper shafts continued their winning streak with another victory at this weekend's BMW Championship at Cog Hill. Playing True Temper Dynamic Gold shafts in his irons, the champion delivered one great iron shot after another to earn his 71st career victory and sixth win of the 2009 season. The event marked True Temper shafts' 37th victory and 13th consecutive win on the PGA Tour this year.

Week after week, True Temper shafts have delivered winning performances, whether it has been Dynamic Gold, Project X or Rifle. As the best players in the world streak towards Atlanta for the FedEx Cup, the question is not if True Temper shafts will be in the winner's bag, but which one of their leadership brands will clinch the victory.

Manufactured by True Temper Sports, Dynamic Gold is the most popular shaft design in the world. Dynamic Gold shafts feature a high-flex, tour weight design played by skilled players who prefer a low, penetrating ball trajectory. Dynamic Gold shafts are available in tapered and parallel irons and parallel woods.
