

# TRUE TEMPER®

## THE #1 SHAFT IN GOLF

AUGUST 2009

### TRUE TEMPER CONTINUE DOMINATION

True Temper claimed the Buick Open once again. The champion cruised to a final round of 69 to claim his 69<sup>th</sup> career victory. Playing with Dynamic Gold X100's in his irons the world #1 finished at 20 under par and a three shot victory.

Dynamic Gold dominated the top ten in the event, with 8 players choosing the shaft in their irons, and the other 4 players choosing Project X. True Temper have now won 30 of the 33 events played so far on the PGA Tour this year, 17 of which have been won with Dynamic Gold.

Dynamic Gold steel shafts are the top-selling steel shaft in golf and are preferred by skilled players seeking a controlled, penetrating ball flight.

True Temper's Project X shafts are an enormously popular line of shafts which have earned worldwide acclaim. Project X features a unique variable taper design with a dedicated taper rate per inch for each shaft in the set. Longer taper rate results in more energy transfer to the ball for a faster and flatter penetrating trajectory. Dynamic Gold shafts are available in tapered and parallel irons and parallel woods, while Project X steel shafts are available in tapered and parallel irons.

True Temper continues to lead the way on all tours worldwide. Whether it be the PGA Tour, the European Tour or any other tour, the winners continue to choose and trust True Temper golf shafts.
